PROFESSIONAL SUMMARY

Full-stack developer and final-year B.E. Information Technology student (GTU, CGPA 7.83, graduating May 2027) seeking a Junior Full-Stack Developer / Software Engineer role. Built and shipped three MERN/PERN applications using React.js, Node.js, Express.js, MongoDB and PostgreSQL, with REST APIs, JWT authentication, role-based admin routes and unit testing. Completed a React.js internship building an API-driven application, and published a research paper on lightweight IoT cryptography.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), Java, SQL, HTML5, CSS3
Frontend: React.js, React Hooks, Context API, Custom Hooks, Tailwind CSS, Responsive Design
Backend: Node.js, Express.js, RESTful API Design, JWT Authentication, Role-Based Access Control, Prisma ORM (basic)
Databases: MongoDB, PostgreSQL, MySQL
Tools & Testing: Git, GitHub, Postman, Vitest, VS Code, Vercel (deployment)

PROJECTS

Traveloops – Full-Stack Travel Planning Platform | React.js, Node.js, Express.js, MongoDB, JWT, Vitest
GitHub: github.com/Henil1136/traveloops

- Built an end-to-end travel planning application (React.js frontend, Express.js REST API, MongoDB) for browsing destinations, hotels, restaurants and activities, secured with JWT authentication.
- Developed a multi-step trip builder with itinerary days, budget tracking, packing checklists and a live-total cart, using React Context API and reusable custom hooks for global state.
- Implemented admin-only catalog management routes and database seeding scripts; wrote a Vitest unit test suite for core frontend features to enable safer refactoring.

NoteVerse-GTU – Study Material Sharing Platform (Team Project) | React.js, Node.js, Express.js, PostgreSQL
GitHub: github.com/Henil1136/NoteVerseGTU | Live Demo: note-verse-gtu.vercel.app

- Developed the React.js frontend of a deployed PERN-stack platform where GTU students browse, filter and download notes and past exam papers by subject, branch and semester.
- Built a responsive, mobile-friendly UI with real-time search, filtering and pagination for fast discovery across large document collections.
- Integrated JWT-authenticated REST APIs for multi-format uploads (PDF, DOC, DOCX, MP4), delivering a complete upload-to-download user flow.

PassOP – Password Manager | React.js, Tailwind CSS, Node.js, Express.js, MongoDB
GitHub: github.com/Henil1136/PassOP

- Built a full-stack credential manager with complete CRUD operations through a REST API connecting React.js to an Express.js/MongoDB backend.
- Designed a clean, responsive Tailwind CSS interface with copy-to-clipboard and instant UI updates on add, edit and delete without page reloads.

EXPERIENCE

React Intern – InfoLabz IT Services Pvt. Ltd., Ahmedabad Jul 2026

- Built an API-driven React.js application that fetches and renders external REST API data using reusable, component-based architecture.
- Applied JavaScript (ES6+), state management and API integration practices under mentor guidance; reused the same patterns in personal MERN projects.

Skill-Based Training Intern – CloudThat × SAL College of Engineering (Microsoft Program 2026) Jul 2026

- Completed an industry-aligned Microsoft Program 2026 training curriculum; earned a Certificate of Internship (No. CT/25/109758).

EDUCATION

B.E. in Information Technology – SAL College of Engineering, Ahmedabad (GTU) Expected May 2027
CGPA: 7.83

PUBLICATION

- Lightweight Cryptography for IoT Devices – International Journal of Scientific Development and Research (IJSDR), Vol. 11, Issue 4, Apr 2026.

CERTIFICATIONS & ACHIEVEMENTS

- Meta Web Development Fundamentals Specialization – Meta (Coursera), Apr 2026: Front-End Development, HTML & CSS, Python, Databases for Back-End, Django.
- Technology Job Simulation – Deloitte Australia (Forage), 2026.
- Participant, TarkShaastra 2k26 24-Hour Hackathon – L.D. College of Engineering, Ahmedabad, Apr 2026.
